Overview

25 Word Product Description

The CORSAIR iCUE 4000X RGB is a distinctive and customizable tempered glass mid-tower ATX case with easy cable management and exceptional cooling, with three included CORSAIR AirGuide RGB fans.

Overview

50 Word Product Description

The CORSAIR iCUE 4000X RGB is a distinctive and customizable tempered glass mid-tower ATX case with easy cable management and exceptional cooling. Two tempered glass panels and dedicated front ventilation channels combine to offer great looks and airflow, accompanied by three included 120mm AirGuide RGB fans that concentrate cooling and illuminate your system. CORSAIR RapidRoute design makes it effortless to route major cables through a single channel.

Overview

100 Word Product Description

The CORSAIR iCUE 4000X RGB is a distinctive and customizable tempered glass mid-tower ATX case with easy cable management and exceptional cooling. Two tempered glass panels and dedicated front ventilation channels combine to offer great looks and airflow. Three 120mm AirGuide RGB fans concentrate cooling and illuminate your system, controlled by the included iCUE Lighting Node CORE. The CORSAIR RapidRoute cable management system makes it effortless to route major cables through a single channel, with 25mm of routing depth. The 4000X RGB offers all the space you need for excellent cooling and storage, with room for radiators in sizes up to 360mm and four storage drives. Complete with a modern front I/O panel including a USB-C port, the 4000X RGB makes great cooling and clean looks easier than ever.

Features and Benefits

Style 1

- Combining stylish tempered glass, customizable RGB lighting, innovative cable management and concentrated airflow, choose the 4000X RGB for a unique high-performance PC.
- Show off your components and RGB lighting with tempered glass side and front panels, built with dedicated front ventilation channels for ample airflow.
- The CORSAIR RapidRoute cable management system makes it simple and fast to build an immaculate, professional-looking system with major cables neatly routed through a single channel, with a roomy 25mm of space behind the motherboard for all of your cables.
- Includes three CORSAIR 120mm AirGuide RGB fans, utilizing anti-vortex vanes to concentrate airflow and enhance cooling. Each fan is equipped with eight individually addressable RGB LEDs for brilliant customizable lighting.
- Fully control and synchronize the RGB lighting for up to six fans with the included iCUE Lighting Node CORE and CORSAIR iCUE software.
- A spacious interior fits up to 6x 120mm or 4x 140mm cooling fans, along with multiple radiators including 360mm in front and 280mm in the roof (dependent on RAM height).
- Put modern connections within easy reach with a front I/O panel including a USB 3.1 Type-C Port, USB 3.0 port, and a combination audio/microphone jack.

Style 2

- **Make it Personal:** Combining stylish tempered glass, customizable RGB lighting, innovative cable management and concentrated airflow, choose the 4000X RGB for a unique high-performance PC.
- **Tempered Glass Side and Front Panels:** Show off your components and RGB lighting, with dedicated front ventilation channels for ample airflow.
- **CORSAIR RapidRoute Cable Management System:** Makes it simple and fast to build an immaculate, professional-looking system with major cables neatly routed through a single channel, with a roomy 25mm of space behind the motherboard for all of your cables.
- **Three Included 120mm RGB Fans:** CORSAIR AirGuide RGB fans utilize anti-vortex vanes to concentrate airflow and enhance cooling. Each fan is equipped with eight individually addressable RGB LEDs for brilliant lighting.
- **Smart RGB Lighting out of the Box:** Fully control and synchronize the RGB lighting for up to six fans with the included iCUE Lighting Node CORE and CORSAIR iCUE software.
- **Extreme Cooling Potential:** A spacious interior fits up to 6x 120mm or 4x 140mm cooling fans, along with multiple radiators including a 360mm in front and 280mm in the roof (dependent on RAM height).
- **Modern Front Panel I/O:** Puts your connections within easy reach, including a USB 3.1 Type-C Port, USB 3.0 port, and a combination audio/microphone jack.
- **All the Storage You Need:** Fits up to 2x SSDs and 2x HDDs.
