CONTROL AND PRECISION

The GP2 is a mousepad for gamers who want enhanced control over their swipes and flicks. It features a slightly coarser cloth surface, optmized for precision in every mouse movement.

"Since precision is key, the mousepad is an extremely important piece of equipment. I'm using the GP2 because of the material selection and the friction of the surface – it's just right for me."
Dennis "dennis" Edman, professional CS:GO player

QUALITY MATERIALS

The textile-weave of the GP2 provides super-precise mouse tracking for both laser and optical mice. The edges are stitched for long-lasting durability, while the non-slip rubber base keeps the mousepad in place.

SIZE: XXL

The XXL version of the GP2 covers your entire desk and is a perfect fit for 120 x 60 cm tables. Tie your whole gaming station together with this full-desk pad and never run out of mousepad space again.

WASHABLE

For convenience, all of Xtrfy's GP1 and XTP1 mousepads are machine washable. 30 °C, no tumbling, no ironing – and your pad will look as good as new.
