MINIX NEO P2, 100W Turbo 4-Port GaN Charger

2 x USB-C Power Delivery 3.0 (Max 100W) + 2 x USB-A Quick Charge 3.0 (Max 18W)

One For All Your Charging Needs. Universal Fast Charging.

Next-Gen GaN Technology.

MINIX's 100W Turbo 4-Port GaN Charger (MINIX NEO P2) consolidates multiple chargers into one, combining two USB-C ports and two USB-A ports in a sleek, palm-sized design. Ideal for in the office, at home or travelling.

Powered by the latest Gallium Nitride (GaN) Technology, MINIX NEO P2 delivers ultra-fast charging speeds in a smaller form factor design compared to traditional silicon-based chargers.

Power Sharing Technology.

With 100W, there is plenty of power to share around with 2 x USB-C (supporting Power Delivery 3.0) and 2 x USB-A (supporting Quick Charge 3.0) ports. Giving you everything you need to charge your smartphone, laptop, tablet, and another USB device all at the same time.

Dynamic Smart Detection.

MINIX NEO P2 automatically adjusts the power output of each port depending on the devices connected to it. So, no matter what device is plugged into the end of your cable, it will be charged quickly and safely.

Multi-Protection Safety System.

Thanks to its high-density heat sinks, MINIX NEO P2 achieves industry-beating low operating temperature, and its fire-resistant polycarbonate enclosure adds an additional layer of protection.

The turbo charger's multi-protection safety system ensures complete protection for connected devices from overvoltage, input and output overcurrent, short circuit, and overheating.

You can trust it to charge perfectly for many years to come.

Travel-Friendly.

The cleverly designed, built-in foldable wall plug tucks away when not in use, further reducing MINIX NEO P2's size, and avoiding the need for bulky power cables.

Our 100W Turbo Four-Port GaN Charger supports worldwide universal 100-240V voltage.

UK and EU adapters are included in the box for near-worldwide compatibility, making it the perfect travel companion.

Universal Compatibility.

MINIX NEO P2 supports the majority of Quick Charging Protocols, including Apple PD 3.0, Android QC4+, QC 3.0 etc.

It is compatible with most USB-A and USB-C smartphones, tablets, laptops and electronic devices, including:

iPhone 11 / 11 Pro / 11 Pro Max / XS / XS Max / XR / X / 8 Plus / 8 / 7 / 6
