Solstice Element

Ideal Use Cases:

- Organizations with low budget constraints looking for a best-in-class sharing solution.
- Small teams or individual users searching for easy-to-use wireless content sharing.
- A cost-effective attach for any display to enhance and customize the user experience.
- Environments desiring Airplay and Miracast for wireless display needs.

Not Suited For:

- Scenarios needing the full Solstice suite such as calendaring, hybrid conference support, advanced cloud management, etc.
- Businesses in need of API integration or live support services.
